

Smarter produce forecasts, more of your shelves covered.

Our new AI-driven demand engine is now forecasting your produce items more accurately than ever — and it's looking at far more of your assortment than the previous system ever did. Here's what that means for **Lowes**.

What's improving for Lowes

84.4%	of items are forecast more accurately than they were under the legacy method — meaning closer-to-real demand, less guesswork at the store level.
+4,766	additional item × store combinations now have a daily forecast — including 0 unit-sold items that the previous system never forecasted at all.
99.3%	of daily forecasts land within 2 cases of actual sales — the practical accuracy threshold for produce ordering.
+59%	growth in unique produce items covered vs the legacy system (453 → 722).
