

Smarter produce forecasts, more of your shelves covered.

Our new AI-driven demand engine is now forecasting your produce items more accurately than ever — and it's looking at far more of your assortment than the previous system ever did. Here's what that means for Kowalskis.

What's improving for Kowalskis

85.7%	of items are forecast more accurately than they were under the legacy method — meaning closer-to-real demand, less guesswork at the store level.
+1,359	additional item × store combinations now have a daily forecast — including 0 unit-sold items that the previous system never forecasted at all.
96.0%	of daily forecasts land within 2 cases of actual sales — the practical accuracy threshold for produce ordering.
+38%	growth in unique produce items covered vs the legacy system (490 → 674).
